

Appendix 1: DE 1/10: Requested and Previous Procedure Code

This Appendix contains the specific completion rules instructions for the 4-digit Requested and Previous Procedure Code that can be used in Data Element DE 1/10 for the Final Supplementary Declaration (FSD)

This Appendix only contains the additional notes on specific declaration data elements in relation to the 4-digit Procedure Code and **does not** constitute full guidance on how the FSD should be completed.

The completion notes in this Appendix are a supplement to the main [CDS Declaration Completion Instructions for Final Supplementary Declarations](#).

Where the DE 1/10 completion notes contain different instruction from the main Declaration Completion Instructions or other Appendices, the completion instructions in Appendix 1 take precedence.

Notes:

The FSD Procedure Code may only be declared with the relevant Declaration Category, as defined in the table below.

Declaration Category	Declaration Title	Procedure Code
FSD	Final Supplementary Declaration (FSD) Reporting for Simplified Declaration Procedure (SDP) Regular Use and Entry in the Declarants Records (EIDR)	0090

Appendix 1: DE 1/10: Requested and Previous Procedure Code Index List

This index provides the Requested and Previous Procedure Code for use with Data Element 1/10 for the FSD.

The following table provides an index list of the 4-digit Procedure Code which may be used in DE 1/10 and its description:

Final Supplementary Declaration (FSD)	
Code	Description of Procedure
0090	Final Supplementary Declaration (FSD) Report
